Allowable Subject Matter

1. Claims 1, 4-13, 15 and 16 are allowed over prior art.
2. The following is an examiner's statement of reasons for allowance: Applicant has submitted a terminal disclaimer, which corrects the previous double patenting rejection.

Although the combined cited prior art of Kinkade (US-2001/0034782) and Oyama et al (US-2002/0114305) teaches managing prioritizing of data flow/messages as associated in a Web-based proxy environment, wherein proxy messages are queued in by priority (ranked order), pre-defined priority parameters, messaging in a multi-media remote communication environment, and accommodating messages with respect to mid-level managers such as SGSN, they fail to teach or suggest priority parameters consisting of precedence and persistence attributes specified in accordance with predetermined QoS parameters and a throttle operating in conjunction with a queuing module for controlling access to system bandwidth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prenell P. Jones whose telephone number is 571-272-3180. The examiner can normally be reached on 9:00-5:30.
